OBJECTIVE

Motivated Digital Systems & Web Technology (DSWT) undergraduate with hands-on experience in developing AI-powered and full-stack web applications using React.js, Python, Flask, MySQL, and modern web technologies. Successfully completed multiple real-world projects, including an AI Chat Bot, Full E-Commerce Website, Mobile Shop Billing System, and responsive React applications. Passionate about leveraging Artificial Intelligence (AI) to build smart, scalable, and user-friendly solutions. Seeking opportunities to contribute to innovative software teams while continuously expanding my expertise in AI, Full-Stack Development, and modern web technologies.

WORK EXPERIENCE

Full-Stack & Front-End Developer | Intern & Personal Projects

- Developed responsive web applications using **React.js, Tailwind CSS, JavaScript, Vite, and Flask**.
- Built backend systems with **Python** (Flask) and integrated **MySQL/SQLite databases** for CRUD operations and data management.
- Developed an **AI-powered Chat Bot** using **Python, Flask, and Groq API** for real-time AI responses.
- Built complete **E-Commerce and Mobile Shop Billing systems** with authentication, billing, and database management.
- Worked with the **MIS Team at National Highway Authority (NHA)** and developed **Monthly & Yearly Reports Software** along with system documentation.
- Completed a **Front-End Developer Internship at Teyzix Core**, developing 3 live responsive front-end web projects using **React.js, Tailwind CSS, and Vite**.
- Used **Git & GitHub** for version control and project management.

EDUCATION

Bachelor of Science in Digital System And Web Technology

Feb 2023 - Feb 2027

Hamdard University Islamabad Campus

- CGPA:** 3.14

TECHNICAL SKILLS

Programming Languages

- Python
- JavaScript
- HTML
- CSS
- SQL

Frontend Development

- React.js
- Tailwind CSS
- Vite
- Framer Motion

Tools & IDEs

- Visual Studio Code
- MySQL Workbench
- Git & GitHub
- Canva
- Adobe Illustrator
- Microsoft Word
- Microsoft PowerPoint

AI & Python Libraries

- Flask
- Requests
- Flask-Mail
- python-dotenv
- Werkzeug
- JSON Processing
- Groq API Integration

Database

- MySQL
- SQLite
- MySQL Workbench

Backend Development

- Flask
- REST API Development
- CRUD Operations
- File Upload Handling

Testing

- Postman
- Database Testing
- API Integration Testing

Deployment

- Vercel
- PythonAnywhere

CERTIFICATES

- Graphic Design Certification** – DigiDive Institute (January 2025 | 3 Months)
- Computer Science Internship Certificate** – National Highway Authority (NHA) (July 2025 | 3 Months)
- Front-End Developer Internship Certificate** – Teyzix Core (June 2026 | 1 Month)
