OBJECTIVE

Motivated Digital Systems & Web Technology (DSWT) undergraduate with hands-on experience in developing AI-powered and full-stack web applications using React.js, Python, Flask, MySQL, and modern web technologies. Successfully completed multiple real-world projects, including an AI Chat Bot, Full E-Commerce Website, Mobile Shop Billing System, and responsive React applications. Passionate about leveraging Artificial Intelligence (AI) to build smart, scalable, and user-friendly solutions. Seeking opportunities to contribute to innovative software teams while continuously expanding my expertise in AI, Full-Stack Development, and modern web technologies.

WORK EXPERIENCE

Full-Stack & Front-End Developer | Intern & Personal Projects

- Developed responsive and modern web applications using **React.js, HTML5, CSS3, JavaScript, Tailwind CSS**, and **Vite**.
- Built scalable backend applications with **Python** (Flask) and designed **RESTful APIs** for frontend integration.
- Designed and managed **MySQL** databases using **MySQL Workbench**, including database schema, CRUD operations, and data relationships.
- Developed an **AI-powered Chat Bot** by integrating **Groq API** for intelligent real-time responses.
- Built complete web applications including an **E-Commerce Website** and **Mobile Shop Billing System** with authentication, billing, and database management.
- Used **Git & GitHub** for version control and collaborative development.
- Created reusable UI components, optimized responsive layouts, and improved application performance.

EDUCATION

Bachelor of Science in Digital System And Web Technology

Feb 2023 - Feb 2027

Hamdard University Islamabad Campus

- CGPA:** 3.14

TECHNICAL SKILLS

Programming Languages	Frontend Development	Tools & IDEs	AI & Python Libraries
- Python - JavaScript - HTML - CSS - SQL	- React.js - Tailwind CSS - Vite - Framer Motion	- Visual Studio Code - MySQL Workbench - Git & GitHub - Canva - Adobe Illustrator - Microsoft Word - Microsoft PowerPoint	- Flask - Requests - Flask-Mail - python-dotenv - Werkzeug - JSON Processing - Groq API Integration
Database	Backend Development	Testing	Deployment
- MySQL - SQLite - MySQL Workbench	- Flask - REST API Development - CRUD Operations - File Upload Handling	- Postman - Database Testing - API Integration Testing	- Vercel - PythonAnywhere

CERTIFICATES

- Graphic Design Certification** – DigiDive Institute (January 2025 | 3 Months)
- Computer Science Internship Certificate** – National Highway Authority (NHA) (July 2025 | 3 Months)
- Front-End Developer Internship Certificate** – Teyzix Core (June 2026 | 1 Month)
